

Welcome back to school !!

Members of our school's alumni association kindly helped maintain "Kokoro no Hanazono" (the Garden of the Heart) by the main gate. Cherry blossoms and a variety of colorful flowers are now in full bloom around the school, warmly welcoming our students.

In a solemn atmosphere filled with both excitement and a sense of anticipation, our new students attended the entrance ceremony with bright, shining eyes and confident expressions.

We extend our heartfelt congratulations to the parents and guardians of our new students on their children's admission. We also congratulate our second- and third-year students on their promotion, while cheering on their past efforts and looking forward to their continued growth. All staff of Fuchu Daihachi Junior High School have worked diligently to prepare for the new school year, so that every student can make a positive and successful start.

During the past school year, we had many valuable opportunities to hear from parents and members of the local community. Visitors and community members shared numerous kind words and messages of encouragement, such as: "I was deeply moved, even to tears, by the thoughtfulness of students," "Whenever I visit the school, the students are always kind and courteous," and "Please continue to let the wonderful singing voices of students resonate." We have also received messages from citizens outside the school district saying, "We fully support Hatchu!"

We would like to express our sincere gratitude to all members of the community and related stakeholders for their active involvement with our students. We believe that it is the role of adults who watch over students' growth to consider how and where to bring our the best in students.

We hope that not only the school faculty and staff, but also parents and members of the local community will continue to support each and every student of our school with care and understanding, within their respective roles.

We have shared the concept of "Child-centered" on various occasions. Adolescents, in the midst of their developmental years, inevitably face and overcome a wide range of difficulties as they grow. At such times, what is especially important is for adults to firmly support the children's sense of security.

"Child-centered" means that we adults focus on children, and join hands to protect and support them. The key point is strong cooperation among adults. In addition to fulfilling our important role in supporting children, this also provides students with invaluable opportunities to learn essential social skills and the fundamentals of communication needed for life in society, and to cultivate values that will surely benefit them in the future.

The educational goal of Fuchu Daihachi Junior High School, revised in the School Year 2025, is as follows:

"Fostering students who learn proactively,
walk together with others in a healthy manner,
and are filled with kindness,"

In order to achieve the goal, we are committed to the initiatives:

- ★ Education that fosters the ability to engage in learning proactively
- ★ Education that nurtures rich intellectual development
- ★ Education that cultivates sensitivity and emotional growth
- ★ Education that develops strong social skills
- ★ Education that fosters a sense of discipline and basic life habits
(Development of self-realization skills)
- ★ Education that nurtures the ability to promote a culture of safety within the community

To achieve these goals, all faculty and staff will work together as one. We sincerely appreciate your continued understanding and support.
